Student Experiences Survey

Student name: _____   **Current grade:** _____   **Your Age:** _____

Any previous programming or computer experience you have:
(If yes, please elaborate. It's okay to say "no" or "not sure")

What do you think learning computer science is going to be like?

What are your favorite things you do with technology?
(examples: playing with phone apps, Xbox games, designing visuals/art online)

What are your favorite subjects?

What is an example of something you learned that you will always remember?
Why was it so memorable to you? What did you like about how it was taught?

What hobbies, sports, other interests, or social causes do you care about?

What is a saying, metaphor, analogy, or parable you remember hearing from your parents or guardians, grandparents, aunts and uncles? And what do you think it means?

Now that you have had some additional time to think about "I am __", express who you are using SNAP
