Student experiences survey

Student name: _____ **Current grade:** _____ **Your Age:** _____

Any previous programming or computer experience you have:
(If yes, please elaborate. It's okay to say "no" or "not sure")

```
[                                                            ]
```

What do you think learning computer science is going to be like?

```
[                                                            ]
```

What are your favorite things you do with technology?

(examples: playing with phone apps, Xbox games, designing visuals/art online)

```
[                                                            ]
```

What are your favorite subjects?

```
[                                                            ]
```

What is an example of something you learned that you will always remember?
Why was it so memorable to you? What did you like about how it was taught?

```
[                                                            ]
```

What hobbies, sports, other interests, or social causes do you care about?

```
[                                                            ]
```

Now that you have had some additional time to think about "I am __", express who you are using Snap!

```
[                                                            ]
```
